

Course Overview

The **Road Crash Rescue** course offered by Mines Rescue provides participants with an understanding of road crash rescue equipment and techniques in a rescue environment. The course is targeted to meet the needs of surface mines and general industries.

Upon successful completion of this course, participants will gain skills and knowledge in:

- Preparing and responding to road crash rescue
- Establishing and maintaining rescue scene safety
- Managing casualties
- Removing casualties from entrapment
- Preserving the incident scene and completing post operational activities

Mines Rescue has almost 90 years experience assisting the mining industry to manage risk and operate safely. To ensure the highest quality standards, Mines Rescue plays a pivotal role in training through its Registered Training Organisation, offering training programs that have been developed by mining and emergency response professionals with national qualifications.

Fast Facts

Course name
Road Crash Rescue

Who should attend?
Individuals who may be required to perform road crash rescue as part of their duties, such as an Emergency Services Officer.

Duration
Five days (approximately 40 hours).

Locations
→ Lithgow
→ Singleton or at your site

A combination of face-to-face classroom based training, desktop scenarios and practical training exercises.

Assessment method
Assessment may include written and oral questioning, practical demonstrations and performing scenarios.

Course fees
Please see our pricing document available on our website. Onsite training costs are available upon request.

Learning outcomes

Upon successful completion of the Road Crash Rescue course, participants will be awarded a Statement of Attainment for the following units:

- **PUASAR022A** Participate in a rescue operation (prerequisite); and
- **PUASAR024A** Undertake road crash rescue

These units contribute to the completion of the Certificate III in Mine Emergency Response and Rescue ([RII30713](#)) and derive from the Certificate III in Public Safety (Firefighting and Emergency Operations) ([PUA30613](#)).

Entry requirements

Participants must have completed the following units:

- **PUAEME001B** Provide emergency care; or
- **HLTFA211A** Provide basic emergency life support; or
- **HLTFA311A** Apply first aid

In addition, participants are encouraged to gain knowledge and experience of the policies and procedures of their workplace before starting the course.

It is acknowledged that this is a course based on a Certificate III level qualification that requires appropriate levels of language, literacy and numeracy skills to manage course work, in-course activities and assessment tasks.

Further information

Please refer to the Mines Rescue Participant Handbook located on our website for relevant policy information, including Payment Terms and Conditions and Refund and Fees Policy.

If you believe you already hold some or all of the skills, knowledge and/or experience for this course, you may be eligible to apply for Recognition of Prior Learning (RPL). You are encouraged to refer to our Participant Handbook and RPL/CT Handbook for Applicants and speak with Mines Rescue prior to commencing training.

For any further information please contact your local Mines Rescue station or visit our website www.minesrescueservices.com.
