

CS Health Similar Exposure Groups (SEG)

Similar exposure group selections must be made by the employer/ prospective employer only. It is not the responsibility of the medical assessor's to ensure the correct SEG is selected. This information must be supplied to the health professional PRIOR to the Order 43 medical being conducted.

Please select the SEG based on the individual's primary task or work location as is appropriate. These groupings have been aligned with the QLD DRNM SEG for comparison and consistency of monitoring purposes.

CS Health Surveillance Roles	CSHU SEG Code	Task descriptions	Area of work
Longwall	CSHU001	Employees and contractors who operate or rotate through the following tasks: operating shearer (tailgate or maingate); operating maingate drive; operating chocks / shields.	Underground
Development / Continuous Miner	CSHU002	Employees and contractors operating as a continuous miner; operating a shuttle car or ram car; undertaking roof and rib bolting; hanging hoses, handling cables, hanging vent tubes, performing belt extensions, hanging brattice.	Underground
Underground Maintenance	CSHU003	Employees and contractors performing mechanical maintenance services underground; performing electrical maintenance underground; undertaking mechanical repairs and vehicle servicing underground.	Underground
Outbye / Production Support	CSHU004	Employees and contractors delivering supplies to underground locations on LHDs, juggernauts and personnel transporters. This includes waste management activities.	Underground
	CSHU006	Employees and contractors performing roadwork construction and maintenance underground; installing / removing infrastructure underground including hoses, cables, lights and pipe work; shotcreting and concreting underground.	Underground
	CSHU007	Employees and contractors spraying stoppings and using jackhammer, and conducting VCD removal tasks.	Underground
	CSHU016	Employees and contractors undertaking secondary support tasks including bolting; building cogs; standing cans; building bulkheads; injecting cementitious products (grout).	Underground

Outbye / Production Support (cont)	CSHU019	Employees and contractors undertaking longwall support and development support activities. This may include some minimal coal winning activities within their work period (e.g. straightening shear, bolting unsupported ground etc).	Underground
	CSHU020	Employees and contractors routinely undertaking maintenance, construction, service recovery, secondary support, stone dusting and services extension / retractions activities in return airways.	Underground
Longwall Move	CSHU005	Employees and contractors operating dozers, LHDs, driftrunners performing face retraction and installation, or involved in the face retraction/ installation including fitters, electricians and mine technicians.	Underground
Deputy	CSHU008	Employees and contractors performing inspections and statutory duties in production panels, returns and outbye locations.	Underground
Boilermaker	CSHU012	Employees and contractors involved in steel fabricating, welding, oxy cutting, air gouging— surface workshop and CHPP workshop.	Underground (surface)
	CSHS005	Employees and contractors involved in steel fabricating, welding, oxy cutting, air gouging— surface workshop and CHPP workshop.	Open cut
Resin Worker	CSHU014	Employees and contractors undertaking resin injection and void filling activities throughout the underground workings. This includes the use of polyurethane resins (PUR) and phenolic resins.	Underground
Stone driveage	CSHU015	Employees and contractors involved in mining through stone, faults and intrusions (e.g. for mine expansion or drift construction). Doesn't include development or longwall workers who encounter small areas of faulted ground or stone banding.	Underground
Underground Gas drainage	CSHU017	Employees and contractors undertaking gas drainage tasks.	Underground
Underground Technical / Management	CSHU018	Shift or section coordinators and under managers.	Underground

Underground other	CSHU022	Employees and contractors routinely performing any underground non-production tasks underground that are not adequately represented by any other SEG.	Underground
CHPP	CSHP001	Employees and contractors involved in control room operations, hosing, clearing blockages, shovelling, bobcat, general maintenance and train loading out and stockpile dozer operators, Employees and contractors performing any other tasks at the CHPP that are not adequately represented by any other SEG.	CHPP
CHPP Maintenance	CSHP002	Employees and contractors undertaking electrical and mechanical maintenance throughout the plant and in the workshop.	CHPP
CHPP laboratory	CSHP003	Employees and contractors taking samples and processing samples in CHPP laboratory.	CHPP
Belt splicers	CSHP005	Employees and contractors performing belt maintenance, splicing and commissioning	CHPP
	CSHU011	Employees and contractors performing belt maintenance, splicing and commissioning.	Underground
	CSHS011	Employees and contractors performing belt maintenance, splicing and commissioning.	Open cut
Surface Mobile Equipment	CSHS001	Employees and contractors working in pre-strip areas of the mine and operating equipment (e.g. haul trucks, loaders, dozers, graders and excavators).	Open cut
	CSHS002	Employees and contractors involved in the removal of product coal (e.g. digger/shovel, dump trucks).	Open cut
	CSHS004	Employees and contractors involved in road maintenance operations including grader and water truck.	Open cut

Surface Mobile Equipment (cont)	CSHS017	Employees and contractors operating or supporting dragline operations.	Open cut
	CSHS018	Employees and contractors operating in production dozing operations.	Open cut
Surface Technical / Management	CSHS003	Employees and contractors performing inspection and monitoring tasks in the mining and excavation areas (e.g. OCE and shift supervisors).	Open cut
	CSHS008	Employees and contractors performing mine planning and design (includes surveyors, geotechnical engineers).	Open cut
	CSHS019	Employees and/or contractors whose principle responsible is supplying emergency response capability.	Open cut
Surface Maintenance	CSHS006	Employees and contractors undertaking electrical and mechanical maintenance activities predominantly in the mining areas.	Open cut
	CSHS015	Employees and contractors supplying fuel, grease and oil to mobile plant throughout the mine.	Open cut
	CSHS016	Employees and contractors performing tyre handling, tyre fitting and tyre repair duties.	Open cut
	CSHS014	Employees and contractors undertaking electrical and mechanical maintenance and services predominantly in the workshop.	Open cut
	CSHU009	Employees and contractors servicing / maintaining vehicles in surface workshop.	Underground (surface)

Blast Crew	CSHS007	Employees and contractors undertaking blasting and shot firing duties.	Open cut
Surface Drilling	CSHS009	Employees and contractors undertaking exploration drilling operations including exploration geologists.	Open cut
	CSHS010	Employees and contractors undertaking blast hole drilling operations.	Open cut
Surface Other	CSHS012	Employees and contractors undertaking warehousing activities including forklift operation.	Open cut
	CSHS020	Employees and contractors performing any other tasks at an open cut mine that are not adequately represented by any other SEG.	Open cut
	CSHU010	Employees and contractors involved in control room operations.	Underground (surface)
	CSHU021	Employees and contractors performing any other tasks on the surface of an underground mine that are not adequately represented by any other SEG.	Underground (surface)
Administration	CSHS013	Administration officers, stores, management and security.	Open cut
	CSHU013	Administration officers, stores, management and surface cleaners.	Underground
