# Pegasus Scanning Project

Project Aims to automate the process of scanning and uploading to a training record to Pegasus:

- PEG Competency will be identifiable by Bar code with OCR (Optical Character Recognition) technology
- Training Documentation can be bulked scanned
- Training coordinator will then approve and verify.

- Testing underway, initial proposal shown below

Example:

Current file title: Name Course Title in OSTE Date

Fitzgerald, Beau Assessment Ventilation and Monitoring PCP 20191022

New file title: ID, Course Title in OSTE Date

OSTE Emp ID, Assessment Ventilation and Monitoring PCP 20191022

<b>Metropolitan Colliery</b>		Training ID

# Pegasus Power BI Project

First iteration has been created for a Power BI competency report that draws out of Pegasus allowing for multiple filters. Much easier interface for our supervisors to use.

## Other Projects:

---

- Additional Contractor company prequalification's required for Pegasus registration
  - HSEC pre audits
  - Automate certificate of currency upload
- Continue to transition online onboarding (Currently 90% for Contractors)
- Develop interactive E learning modules for PHMP's, PCP's and MP's automatically issued.
