

Role requirements *(Requesting Employer to complete)*

This form must be completed by the employer requesting the medical and a copy sent to the Medical Officer conducting the medical assessment prior to the medical being conducted. It is important to note compliance is assessed according to the requirements of NSW Coal Order 43 (the Order), not the requirements of any individual site.

The Order defines a **coal mine worker** as “a person who carries out work at a coal mine for a person conducting a business or undertaking. It does not include a person who works in an environment in which they are not exposed to coal dust unless the person has previously worked in an area of a coal mine in which they were exposed to coal dust.”

The Order defines a **worker** as “a person who is about to commence work at a coal mine for a person conducting a business or undertaking, including a person who has previously worked at a coal mine and is about to commence work at a different coal mine.”
